

Subject: Fome-Cor® Board - Material Safety Date Sheet Information:

Fome-Cor is an “article” and no MSDS is required for compliance with the OSHA Hazard Communication Standard (29 CFR 1910, 1200). The standard applies to “chemicals” but it does not apply to any substance, which is an “article”. The term “article” is defined in the OSHA warning rule, as a manufactured item: 1) which is formed to a specific design during manufacture, 2) which has end use function(s) dependent in whole or in part upon its’ shape or design use during end use, and 3) which does not release, or otherwise result in exposure to hazardous chemical under normal conditions of use.
